

LIPOXYGENASE INHIBITORS AS HYPOLIPIDEMIC AND ANTI-
HYPERTENSIVE AGENTS

ABSTRACT OF THE DISCLOSURE

The present invention provides a method for treating elevated serum triglycerides or hypertension via administering to a human subject with elevated serum triglycerides or hypertension an effective amount of pharmaceutical composition comprising a 5-lipoxygenase inhibitor, in an effective amount which is sufficient to reduce elevated serum triglycerides or hypertension, wherein the 5-lipoxygenase inhibitor is not NDGA or curcumin.
